

ITALIAN RADICALS SEEK TO CONTROL SOCIALIST PARTY

Stand Out Flatly for the Dictatorship of the Proletariat.

GLORIFY SOVIET RULE

Moderates Insist on Programme of Change by Parliamentary Action.

FRICITION AT CONGRESS

Communists Determined to Carry Their Point or Form Another Party.

By the Associated Press.
LONDON, Jan. 16.—The friction between the Socialists and the Communists continued today at the session of the Italian Socialist congress. Deputy Misiano, one of the leaders of the Communists, in addressing the congress, said:

"There is but one light, that of revolution and the dictatorship of the proletariat. The Red armies must go forward to new conquests. They must take possession of the Government, seize factories, make arms and munitions and discipline the proletariat for the offensive."

"Behold the glorious work in Soviet Russia while capitalism in the whole of Western Europe has been organizing their white armies, while Japan has been building armies and navies for the control of Asia, and the United States is increasing its naval power, all heading toward war."

Moderates Get a Hearing.

"While capitalism is massing its forces for a war to control the world markets in an endeavor to throw the world into a new imperialistic encounter the Russian red armies are not standing still. They are preparing for offensive to offensive. We of the Italian Communist party are ready to join with them in their conflict against international imperialism and the capitalist class."

The moderates had their first orator this afternoon in Prof. Barotoni, who represents that branch of the party favorable to unity. He recounted the achievements of the Italian Socialist party, how it built up its membership and organized newspapers and cooperative stores. He declared it now was the largest Italian party.

"Let us reply to Moscow," said Prof. Barotoni, "that we see our own situation better through our own eyes, that we are for a greater unity than Moscow. Moscow calls traitors men who are pioneers in the construction of our party. There is a tendency toward Communism in the Italian party. Until now we have gone together along the same route, accomplishing wonders. Revolution does not mean revolt. There are no interpretations of the Marxian theory. It was not in the mind of Marx that this should be a revolution by revolt. He prophesied that the change would come by constant and persistent perseverance with all the means at our command. To that we all agree."

Urges Continued Unity.

"Let us not abandon that strength which it took years to accumulate. Why weaken the mighty machine of socialism by schisms over small details. We are united in one aim. Let us not destroy our power, but let us go forward until our ultimate aim has been reached."

The same tumultuous scenes as were enacted Saturday took place again today. Several fistfights occurred during the session and the members of the Left hurled insults at those of the Right.

There are three groups in the Congress making strenuous efforts to secure a majority. The Communist group, the Conservative wing, is a staunch adherent of the Socialist principles advocated by Karl Marx, as against Bolshevism, and favors the Socialists gaining power to secure the uplift of the masses through Parliamentary legislation. The Socialist Deputies Treves, Modigliani, Bombacci and Grazziani, are leaders of the Communist section of the party, explicitly adhering to the Third Internationale and sustaining Moscow's demand for the expulsion from the party of all moderate Socialists.

Deputy Berrati, editor of the Socialist Avanti, has formed an intermediate group, favoring unity of the Italian Socialist party and accepting the Third Internationale, but maintaining that the famous twenty-one points of the Moscow organization must be interpreted according to local conditions in each country. The Communists are determined, as were the French Communists at Tours, if they fail to carry their resolution, to form a Communist party separate from the other Socialists.

SPANISH SOCIALISTS TO SPLIT ON MOSCOW

One Emissary for Peace, Other for Revolution.

MADRID, Jan. 16.—The report of Dr. Fernando de Los Rios and Daniel Anzuino, the Spanish Socialist delegates who have returned from an investigation of the Russian Soviet administration, is expected to bring about a division of the Socialist party. Dr. de Los Rios, who is a university professor, has counseled the party to make progress slowly by Parliamentary methods, while Senor Angulo, who is a railroad man, advocates a more immediate adherence to Moscow, internationalism and the abandonment of all efforts to secure amelioration of labor conditions by legislation. He also urges the use of force for the accomplishment of these aims.

It appears probable that the Spanish Socialists will follow the example of their French comrades, and divide into two camps—evolutionists and revolutionists—since a majority of the members of the party are opposed to the views of the moderate leaders and favor breaking away from political activities.

WORKERS SURRENDER PLANT.

BRUSSELS, Jan. 16.—Metal Workers in Chateaufort, near Guis, who had occupied plants there with the intention of winning them over to a Communist plan, have been induced by the labor leaders to leave the various works and order has been restored.

The unemployed in eastern Flanders, including textile workers, are estimated now to number 45,000.

Price Paid on Swift & Company sales of furs held in New York City for week ending Saturday, Jan. 16th, 1921, on shipments sold out, ranged from 13.50 cents to 50.00 cents per pound and averaged 37.25 cents per pound.—Ad.

CROWN PRINCE COMPLAINS OF HIS ENFORCED EXILE

Would Like to Help Build Up Fatherland, but Fears Unrest, Feels He Cannot Go to Parents Because That Would Start Political Rumors.

THE HAGUE, Jan. 16.—Ex-Crown Prince Frederick William of Germany. In an interview given to the editor of a German weekly published in the Netherlands, gives the reasons why he does not return to Germany, why his wife does not join him in his sejour at Werlengen, and why he does not join his father, the former Emperor, at Doorn. Frederick William also sets forth his plans regarding the education of his sons.

"Naturally I would be glad to return to Germany, and I would be happy if I could devote myself to agriculture, particularly to horse breeding," the former Crown Prince is quoted as saying. "I would rejoice to associate with the learned men at Breslau University and regain what I lost during the war and at Werlengen. I would like to use what little power I have to help build up the Fatherland, but that cannot be. My many friends in the Fatherland and abroad would see my hand in every deed which others might begin, but of which I, perhaps, would know nothing at all. Unrest would follow, and our poor Fatherland needs rest. Why does not my wife come here? Believe me, she would gladly do so. But there is no chance of such happiness and good luck, as we are gripped in the vise of duty. She has the training of our children at heart and must direct it. Our sons must learn to make themselves useful commercially. Wilhelm and Luitpold (the latter a yet name for one of the sons) are now going to the gymnasium at Potsdam. The elder one wants to become an expert farmer and so later to an agricultural academy. Luitpold feels that he has the talent for a mercantile career, and is planning a tour of the world in a German merchant ship, and hopes to learn the rudiments of business. I have nothing against their plans if they result in the boys becoming useful men. They are studying hard and have no time for amusements or sport. They need a father's care, too, but that cannot be."

"I cannot go to my parents at Doorn. Our opponents are continually trying to put us in the position of being ready to set the world on fire, and if we were to go, then, in the eyes of our opponents the overthrow of the world would be a question of time. As for buying an estate in Holland, where would I get the money, particularly in view of the low rate of German exchange."

NEGROES IN CUBA ON VERGE OF A REVOLT

Continued from First Page.

gandists, who literally have overrun the island.

There are many on the island who have vouchsafed the information that Cuba has been the temporary stopping place of hundreds of these agents seeking entrance to the United States, but who are unequipped with passports or other means of entrance. They have spread the gospel of revolution and race power from one end of the island to the other, and to their ranks have been added more than one educated negro who has come out of the United States bubbling over with enthusiasm for the much preached cause of negro equality everywhere and supremacy where the black man outnumbers the white.

Evidence that the negroes are beginning to feel their power on the island has been found in many places in Orient province. More than one clash has occurred already, but they have been only spontaneous outbreaks of the sort that the revolutionary agents have discouraged and have done everything in their power to prevent, in the hope of diverting attention from their more ambitious plans.

AMERICAN WOMAN IS ACCUSED OF SWINDLING

Arrested in Berlin With Two Alleged Accomplices.

Berlin, Jan. 16.—An American woman and two alleged accomplices in a swindling operation have been arrested here. The woman's maiden name is said by the police to have been Virginia Fairfax. They assert that she was married to a German named Moll, who died a year ago. Mrs. Moll is said to have come to Germany nine years ago and since that time she has lived here.

The woman and her accomplices, according to the police, under the pretext of organizing a food relief bureau with the aid of American funds, succeeded a year ago in obtaining duty free import licenses for more than a hundred cartons of foodstuffs. Of these supplies thirty cartons are declared already to have entered Germany and been transferred to private speculators.

AUSTRIAN STRIKE SETTLED.

Telephone and Telegraph Operators Back After Three Days.

VIENNA, Jan. 15 (delayed).—The strike of the telephone and telegraph employees in the postal service was settled to-night by the Government after three days of intermittent disorders. The railroad men had planned a counter strike for Sunday in an effort to compel the workers in the communication service to return.

There had been widespread condemnation of the postal strike as unjustified, and it was opposed by many of the employees themselves.

PAN-AMERICA WILL HAVE LABOR ENVOYS

In Every Country Immigration Agencies Are to Report on Conditions.

FEDERATION SO RULES

United States Delegates Oppose Mexican Resolution, but It Is Adopted.

By the Associated Press.

MEXICO CITY, Jan. 16.—Immigration agencies in all Latin American countries for the collection and dissemination of information regarding labor conditions will be established under the terms of a resolution adopted by the Pan-American Federation of Labor congress. Delegates from the United States and Porto Rico opposed the idea, but were voted down in the first divided vote of the congress.

The resolution, which was introduced by the Mexican delegation, gave rise to a protracted debate. It called for the appointment of special labor envoys in each Pan-American country, but the resolutions committee reported it had amended the motion so that the federation's executive officers would be named as information gatherers. It being planned by this means to eliminate the expense entailed by the carrying out of the original proposal.

When the amended motion was submitted an animated debate began, during which Samuel Gompers, president of the congress, was compelled frequently to explain United States labor conditions. He stated that upward of 1,500,000 immigrants were received in the United States each year and that 15,000,000 persons in European countries were ready to come to America and were waiting for ships to bring them. He added a note of warning, saying that at present there were more than 2,000,000 unemployed people in the United States.

The committee's amendment was rejected and the original Mexican resolution was adopted.

GREEK OFFENSIVE IS STOPPED, TURKS SAY

Front Yields and Entire Division Destroyed in Retreat.

CONSTANTINOPLE, Jan. 16.—According to a Turkish Nationalist communication received here today, the Greek offensive in the Balkan region in Asia Minor has been stopped. It says the Greek troops yielded along the entire front under the pressure of the Turks; that the retreat of the Greeks has been disorderly and costly, one entire division having been destroyed.

In anticipation of an intensified Greek offensive under direct command of King Constantine the Turks are pouring reserves into the Brusa and Smyrna fronts. The Government archives in Ankara have been transferred to Sivas, in case the Turkish front should break, the Christian population in the war zone, it is said, will be deported to Erzerum under pretense of military necessity.

Both Turkish Nationalists and Greeks are claiming victory in the fighting in the Brusa sector of Asia Minor. It is maintained here that the setbacks the Greeks have suffered are not due to bad morale among their troops or inefficiency by the recently installed Greek officers, but to the fact that the Turks have used picked troops, and that weather conditions have been unfavorable to the Greeks, as the mountains are covered with snow.

No Bolsheviks, it is understood, are fighting in the Turkish ranks against the Greeks.

ICEBREAKER BLOWN TO SEA.
Japanese Vessel Caught in Flee of Siberia.

TOKYO, Jan. 16.—Communication was lost again to-day with the ice breaker Baikal, which was last reported to be caught in a great ice floe off the coast. Fears for the worst were expressed.

Airplanes had been sent in search of the Baikal, which was blown out of the harbor of Alexandrovsk during a storm on December 9 and which has since been imprisoned in a great ice floe. She was sighted and preparations made to rescue the people on board, when she again disappeared.

Three hundred times and still the sensation of New York. D. W. Griffith's "Way Down East," 4th St. Theatre. Matinee every day at 2:15.—Ad.

CALIFORNIA LAND LID AROUSES ALL JAPAN

New League in Tokio Says Law Will Wreck Spirit of Friendship.

WASHINGTON GETS NEWS

Resolutions Are Adopted at Gathering of Notable Men and Associations.

Special Despatch to THE NEW YORK HERALD.

NEW YORK, Jan. 16.—The text of a resolution adopted by a league organized in Japan representing all Japanese associations dealing with California land laws, has been received in Washington. The resolutions were adopted at a meeting held recently in Tokio. They are supposed to represent the general sentiment in Japan of this question. The text of the resolutions is as follows:

"1.—The California land law is an infringement on the worldwide righteousness of humanity. It absolutely will wreck the spirit of friendship between Japan and America."

"2.—We absolutely disapprove of the formation of any treaty which will abrogate the workings of the gentlemen's agreement."

The league includes some of the most prominent men in Japan, among them Dr. Juichi Soyeda, Shotaro Kato and Viscount Shidulawa. The Japan Emigration Association, the Association of the League of Nations, the Japanese Association of America, the American Friends Association, the Pacific Association, the National Righteousness Association, the Investigation Association and the Far Eastern Questions Association, are all represented in the league.

At the meeting, which adopted the resolution, Dr. Soyeda said: "The anti-Japanese movement in California is the result of the inability for active propaganda on the part of the Japanese. We may well profit by the example set by the Chinese, who are very clever at the game of propaganda, who thereby derive great advantage. It is stated here that both Ambassador Shidehara and Mr. Morris are active in trying to bring about some solution of the present California situation, but no satisfactory solution can be accomplished by the personal efforts of only the two men."

The meeting decided to call a mass meeting in Tokio of all the members of the various associations in the near future to discuss the California question in a public manner.

Think of it! Now passed the 300th performance of D. W. Griffith's "Way Down East," 4th St. Theatre. Matinee today and every day.—Ad.

ITALY ADOPTS POLICY OF TREATY LENIENCY

Favors Softening Terms for Germany and Turkey.

LONDON, Jan. 16.—It has been unanimously decided, says an Exchange Telegraph despatch from Rome, by the Italian Cabinet that in the coming Supreme Council in Paris it will be impossible for Italy to support any measure calculated to force Germany to fulfill in their entirety the obligations of the Versailles treaty. The Cabinet also does not favor any measure to compel Turkey to accept the present dispositions as regards the Near Eastern situation.

PERUVIAN PAINTER CONVICTED

ROME, Jan. 16.—Luis Ignatius Meones, the Peruvian painter, arrested a year ago charged with the murder of his wife, the daughter of a well-known art gallery proprietor, and with several other offences, was convicted of forgery, on which charge he was placed on trial last Thursday. He received a sentence of three years in prison.
